

# SMALL ANIMAL SURGERY SECRETS

Second Edition

**Questions and Answers  
Reveal the Secrets  
to the Principles and  
Practice of Small  
Animal Surgery**

**JOSEPH HARARI, DVM, MS, DACVS**

Why should surgeons need an understanding of wound healing? What risks of infection have been published in the wound literature? What are the classic clinical signs of a dog injured with shearing trauma? The words "treatment" for a dog means overdosing antibiotics. Are the cardiovascular effects of a dog's postoperative care the same as those of a human? How do you dilated a dog's ureter? Can a dilated ureter be treated? Are there any congenital causes of extrahepatic biliary obstruction?
